

MAKE AN AWARENESS POSTER

ACTIVITY

Time Needed

Up to 3 hours

Materials

Access to internet

Digital projector

Pens, pencils, markers or paint

Printed worksheet

Poster paper or butcher paper

(*Could also be a digital poster to display)

Activity Description

Here's how you can help spread the message. Using the [fentanyl 6-min video](#) and the [Fentapill Fact Sheet](#), create an awareness poster. You can work as a group or individually. Once completed, place the posters around your school, share them on social media, or use them as part of a larger assembly.

Suggested Steps

1. Watch the 6-minute video on Fentanyl, and debrief with the discussion questions.
 - Link to video: <https://vimeo.com/747036321>
2. Spend time reviewing the **Fentapill Fact Sheet** (find it at bit.ly/fentapill-facts). Use the following prompts to decide the words, phrases, images, and ideas you will use for your poster(s).
 - What sticks out to you the most from the video and the fact sheet?
 - What do you think other students need to know and understand? Select the top 3 facts.
 - What elements would go into an effective, attention-grabbing, and informative poster?
 - What do you want other students to learn from your poster? What do you hope they will feel from your poster?
3. Design and Produce Your Poster(s)
4. Go out and Post Your Poster(s).
5. Ask for Feedback.

- After a week or so, ask a selection of students what they thought about your poster(s). Ask them what they remember about them. Each student can survey five other students.
- Debrief what you learned from your surveys.
